I keep trading and crypto communities clean, active and growing, and I make sure what users report *reaches the team that can fix it.*

Community moderator and X marketer for Klein Funding, a prop trading firm, and head moderator for $HENNY through its all-time high. I trade myself, memecoins and perpetuals since 2024, so I know what the people in these rooms are dealing with. I also write code, which makes bug reports and feedback easy to hand to a dev team.
